Impact Analysis

Aarti	English	Percentage
Marks (Initial)	14/50	28%
Marks (Current)	34/50	68%

Joining us in the mornings since July with a beautiful smile, Aarti initially struggled a lot. With resilience and motivation from our mentors she boosted her reading, writing and comprehension levels by 40%.

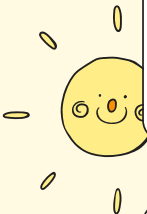

Joining us in the afternoons since the last 6 months with a curious mind, Sonali impressed us with her understanding of the basics. She consistently made efforts and took guidance from our mentors, resulting in a 40% increase in her English language skills.

Sonali	English	Percentage
Marks (Initial)	22/50	44%
Marks (Current)	39/50	78%

The Impact

60%

Parent engagement increased by 60% through regular mentor-parent discussions

75%

Students enrolled with an attendance of 75%

5x

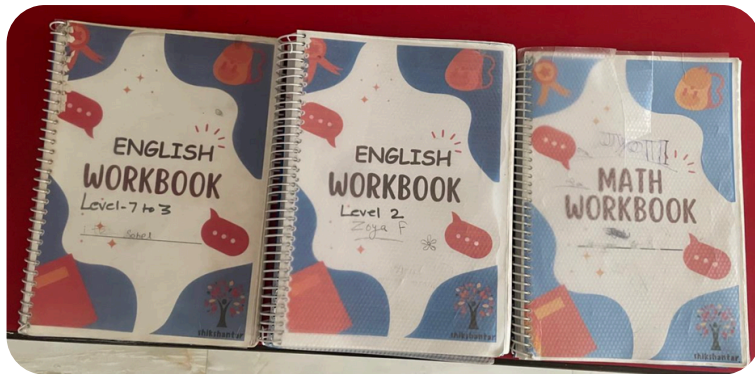

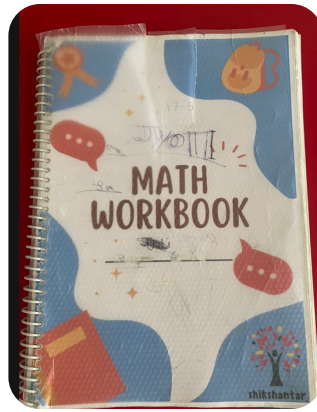

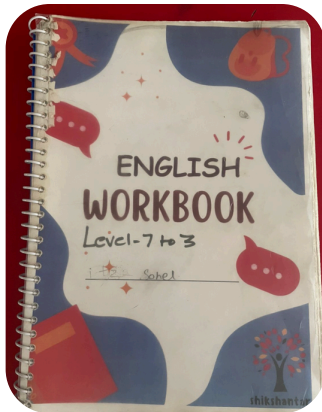

Children in our program are 5x less likely to go missing during critical after-school hours

35

Quarterly health camps, health interventions for at risk students

Leave little to chance

Community Newsletters

**Newsletter**
Your weekly updates about our journey!

Little **Farhaan** had a celebrity moment as it was his bday, (hence the adorable 3 piece suit) Here's **Hamza** wishing him with a very professional handshake!

We made pop up **cards**! It was equal **proportions** of **chaotic** and **fun**. But we are so proud of what we made and exercising our creativity.

We learnt about **photo-synthesis** and the building blocks of life such as water, oxygen, sunlight and soil.

Shivsagar + Ayyub

Here's the inseparable **Shivsagar** and **Ayyub** with their usual **antics**. Somehow managed to sit in one place for this photo op.

Covering Days of the week, and months of the year, we also loved **dancing** and learning about head, nose, knees and feet!

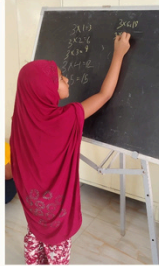

We covered **tenses** of Today (Present) Yesterday (Past) Tomorrow (Future) in Hindi first and then slowly framed simple sentences in **English** with the help of **Shruti Ma'am**.

Taking inspiration from the **NCERT curriculum**, here's **Radhika Ma'am** doing some storytelling classes + excercises with the afternoon batch.

Pari

Here's our very own Pari, also lovingly known as **Jalpari**, trying her hand at revising math tables. It's funny how kids have **multiple names** until they are slightly older, it's just very difficult to pick just one!

Richa Ma'am did **colour theory** with light, rainbow and primary colours & played a game on colours with the help of a **colour wheel**.

Poornima and Jaya ma'am used charts of the alphabets, animals, birds and fruits to help identify by recognizing and reading.

Here is **Lakshmi Ma'am** explaining how a Rubik's cube works to **Ishran**, and **Sahil**.

Mentor's Testimonials

**Akanksha Kakade, VP -
Morgan Stanley**

J.P.Morgan

I can't imagine my week without spending time with these amazing kids. It's fulfilling to be a small part of their journey.

**Meher Mehtani, BSW student
Tata Institute of Social Sciences, Mumbai**

Being a mentor to these kids is pure joy. Seeing their smiles and enthusiasm during our sessions warms my heart. It's a simple act that makes a big difference in their lives.

Diksha , B.Com Student

I signed up as a mentor thinking I had something to offer. Little did I know how much these kids would teach me about resilience and positivity. It's a two-way street of learning and growth.

The End

Three years after joining us, everything changed. His scores jumped significantly. The boy who once hid now tutors younger children and recites poems on stage. He scored a 75% in his 10th boards (2025) and we are now helping him choose a college on his own terms. He wants to pursue Chartered Accountancy, and we see no reason why he cannot become CA Shivsagar.
